

Note: This form is for view and print only.

General Instructions

Use of this form is only permitted if the Director has approved a request to satisfy registration requirements by using a paper document in accordance with section 27.1 of Regulation 347.

This form may be used to satisfy requirements under section 84 of Regulation 347.

For additional information about generator registration, waste identification and land disposal registration notification, please see the manual available at www.ontario.ca/page/hazardous-waste-management-business-and-industry.

Please complete and submit the Land Disposal Registration Notification form (Part 2B) for each waste stream subject to Land Disposal Registration reporting and notification requirements.

By completing the questionnaire on the Waste Identification Form (Part 2A) for each hazardous waste stream, generators can determine if they need to complete the Land Disposal Restrictions Notification Form (Part 2B). Notification is a one-time requirement that provides the receiver with information about the waste and the relevant treatment requirement, and states whether the waste has been partially or fully treated. Each waste-generating facility that ships a waste stream that requires a Land Disposal Restrictions Notification Form (Part 2B) to be completed, must provide the receiving facility with the information contained in the most recent Land Disposal Restrictions Notification Form (Part 2B) of the Generator Registration Report. The notification must be done either before or on the first transfer of the waste.

It is important to note that you, as a waste generator, are responsible for the characterization of your wastes and for the information submitted. The Ministry will input information from your signed Land Disposal Restrictions Notification Form (Part 2B) into the Resource Productivity and Recovery Authority's (RPRA) Hazardous Waste Program Registry on your behalf, but it is your responsibility to ensure that the information entered is correct. If your waste is found to be incorrectly characterized or the information supplied on the Generator Registration Report is incorrect, you are liable for prosecution.

Land Disposal Restrictions (LDR) Notification

Facility Name

Generator Registration Number (if applicable)	Waste Number (waste class and primary characterization, from Part 2A)	Completion Date for Part 2B (yyyy/mm/dd)
--	--	---

Waste Description (from Part 2A)

Is the waste an aqueous waste or a non-aqueous waste as defined in Regulation 347? (select one)

Aqueous Non-aqueous

Will the alternate treatment standards be used to meet LDR requirements?

No Yes If yes, indicate whether the waste is soil/soil mixture or debris/debris mixture.

soil/soil mixture debris/debris mixture (specify below) ▼

List the type(s) of debris present in the waste

Hazardous Waste Numbers

Characterization (A, B, C, H, I, R, S, T, U)	Hazardous Waste Number (Schedules (Sch.) – column (col.) 1)	Waste (Sch. 1, 5 – col. 2), Generic Name (Sch. 2A, 2B – col. 3), or Contaminant (Sch. 3 – col. 3)	CAS Number (if applicable, Sch. 2A, 2B, 3 – col. 2)	Treatment Subcategory (if applicable)
Primary (from Part 2A)				
Secondary (if applicable)				

Regulated Constituents

Hazardous Waste Number (from above)	Regulated Constituents (Sch. 1, 5 – col. 3, Sch. 2A, 2B, 3 – col. 4, Sch. 6 – col. 1) including characteristic, if applicable	CAS Number (Sch. 1, 5 – col. 4, Sch. 2A, 2B, 3 – col. 5, Sch. 6 – col. 2)	Has the constituent or characteristic been treated to meet the requirement?

Variations (if applicable)

Method used to approve variance (select one)

Environmental Compliance Approval Director's Letter Regulatory Exemption

Appropriate approval reference number

ECA Number ▶	1. _____ 2. _____	Letter Reference Number	Amending Regulation
--------------	----------------------	-------------------------	---------------------

Dates the variance is in effect (select one)

Not time-dependent

Start Date (yyyy/mm/dd) _____ End Date (yyyy/mm/dd) _____

If an equivalent treatment method has been approved, identify the approved treatment method.

Confirmation of Treatment Status (select one)

For characteristic wastes

- Waste is being sent offsite to meet the land disposal treatment requirements for the regulated constituents identified above.
- Waste has been fully treated to remove the hazardous characteristic and meets the underlying hazardous constituent (UHC) standards in Schedule 6.
- Waste has been treated to remove the hazardous characteristic, but requires further treatment to meet the underlying hazardous constituent (UHC) standards in Schedule 6 for UHC(s) identified above.
- Waste has been partially treated for the regulated constituents identified above and will be shipped offsite for further treatment.
- Waste is being shipped out of Ontario.

For listed wastes, mixtures that include a listed waste, or waste derived from a listed waste

- Waste is being sent offsite to meet the land disposal treatment requirements for the regulated constituents identified above.
- Waste has been treated and meets the land disposal treatment requirements for regulated constituents identified above.
- Waste has no regulated constituents present or all regulated constituents are already below the land disposal treatment requirements.
- Waste has been partially treated for the regulated constituents identified above and will be shipped offsite for further treatment.
- Waste is being shipped out of Ontario.

Certification

- I certify that I am the contact person named on this registration form, that I have undertaken reasonable inquiry to satisfy myself as to the contents of this registration form and that all of the information contained on this form is accurate and complete to the best of my knowledge. I acknowledge that it is an offence under subsection 184 (2) of the *Environmental Protection Act* to give false or misleading information to the Ministry of the Environment, Conservation and Parks. I confirm that I have been designated by my organization as the Resource Productivity and Recovery (RPR) Hazardous Waste Registry Administrator, and as RPR Hazardous Waste Registry Administrator I certify that I will keep registration information current. I acknowledge that the Ministry of the Environment, Conservation and Parks will hold the users, including RPR Hazardous Waste Registry Administrators responsible for certifications and signatures they make or cause to be made while using this system. Recognizing the importance of certifications and signatures, I certify that as RPR Hazardous Waste Registry Administrator I will implement the necessary management of user names and passwords to ensure the integrity of these certifications and signatures for use in the system by my organization.
