

Reinstating Access to Information in the Ontario Laboratories Information System (OLIS) Reinstatement of Consent

Instructions

Complete this form if you want ALL your laboratory test requests and results (Laboratory Test Information) made accessible through OLIS to the Ministry of Health and Long-Term Care (Ministry) and to ALL participating health care providers involved in your care.

The Ontario Laboratories Information System (OLIS) is a secure electronic system that allows authorized health care providers and laboratories to share information about laboratory test requests and results (Laboratory Test Information). Authorized health care providers use OLIS to access Laboratory Test Information, in real time, for health care purposes.

Having previously withdrawn consent to access my Laboratory Test Information in OLIS, I now hereby wish to reinstate consent to the sharing of ALL my Laboratory Test Information in OLIS with the Ministry and with ALL participating Ontario health care providers involved in my care. I understand that I may also temporarily reinstate consent to share ALL of my Laboratory Test Information in OLIS with a SPECIFIC health care provider by communicating my instructions at the time I receive care. Such an instruction will allow that health care provider to access ALL of my Laboratory Test Information through OLIS for a limited period of time.

Please note that you cannot reinstate consent for specific test information.

If I later decide that I do not want ALL of my Laboratory Test Information in OLIS to be made accessible to the Ministry and to ALL participating Ontario health care providers involved in my care, I understand that I continue to have the right to withdraw my consent either by completing a **Withdrawal of Consent Form** and submitting it to any participating laboratory, or by contacting Service Ontario at 1 800 291-1405 (TTY 1 800 387-5559).
