Schedule F:

Summary of Co-operative Education Tax Credit Claimed

Complete a separate entry for each student work placement which ended during the corporation's taxation year. The tax credit is for co-op work placements commencing after July 31, 1996 and leading-edge technology work placements commencing after December 31, 1997. A work placement is generally considered to be a full-time work assignment for up to 4 months in duration.

Example: If a corporation, with a December 31, 2001 taxation year end, hires an eligible student from September 1, 2001 until April 30, 2002, this would be

considered 2 work placements. The first work placement is September 1, 2001 to December 31, 2001 and would be claimed in the 2002 taxation year. The second placement is January 1, 2002 to April 30, 2002 and must be claimed in the 2002 taxation year.

Schedule G: Summary of Graduate Transitions Tax Credit Claimed

Complete a separate entry for each graduate, that is unrelated to the employer, that has worked full-time for a minimum of a six-month period. This credit applies to new hires commencing after May 6, 1997 for a maximum credit of \$4,000 each and may only be claimed once.

Example: A taxpayer, with a December 31, 2001 taxation year end, hires an otherwise eligible graduate on June 1, 2001 who is still employed on December 31, 2002 at a salary of \$3,500 per month. The salaries and wages in the taxpayer's

preceding taxation year was \$700,000. The taxpayer may only make one tax credit claim for each graduate employed. Although the graduate is employed for 7 months during the 2001 taxation year, the taxpayer must claim the full credit in the taxation year in which the first 12 months of employment falls or when employment is ended if less than 12 months. In this example, the credit must be claimed in the 2002 taxation year. The credit claimed is the lesser of 10% of salary for the maximum 12 months of employment (10% x \$3,500 x 12 = \$4,200) or \$4,000.
