

Registering with the WSIB

If you recently registered a business with Service Ontario you may also be required to register your business with the WSIB. If you have employees (including full-time, part-time, contract, casual labour, students and/or family members) or run a business in construction, please answer a few questions about your business at registeryourbusiness.wsib.ca to confirm if you need to register with us.

By registering with us and paying premiums, your business receives:

- affordable workplace insurance you can rely on to protect your employees
- no-fault workplace insurance that protects you from costly court settlements and provides services and support when you and your employees need it
- peace of mind knowing you have the best coverage for your business
- access to programs and services designed to help improve your workplace health and safety over time

Please visit wsib.ca/en/howtoregister to watch a short video about registering with us.

You can email us at employeraccounts@wsib.on.ca, call us at 416-344-1000 or 1-800-387-0750 (TTY Use 711) or visit wsib.ca if you have any questions.

We're here to help.
